

U.S. ELECTION ASSISTANCE COMMISSION
2008 Election Administration & Voting Survey

1-28-08
Revision

The ongoing process of improving America's election systems relies in part on having accurate data about the way Americans cast their ballots. In 2002, Congress chartered the U.S. Election Assistance Commission to collect information on the state of American elections and make it widely available to policy makers, advocates, scholars, journalists and the general public. Since 2004, the Commission has sponsored an Election Day Survey as its primary tool for fulfilling that mission. We are pleased to present the 2008 Election Day Survey, and we ask for your help in making it the most complete and accurate survey in its history.

The questions below ask for information about ballots cast; voter registration; overseas and military voting; Election Day activities; voting technology; and other important issues. Many of these questions are mandated by the Help America Vote Act and other federal laws, while other questions were included at the request of the research community or policy makers. The EAC recognizes the burden that asking for this data places on state and local election officials, and we have worked to minimize that burden as much as possible.

In advance, we thank you for your cooperation and look forward to answering any questions you might have.

Instructions for Completing the 2008 Election Administration & Voting Survey

1. This survey collects information on election administration issues in local election offices (typically counties or townships) that are responsible for the administration of the November 2008 general election. As such, all data should be reported at the level of the local jurisdiction. However, if a State or Territory desires, a State or Territorial level election office may fill out any or all of the information on behalf of the local election offices under its jurisdiction.
2. Don't leave items blank - always provide an answer to the question asked using the "Data not available" or "Other" categories discussed below, if needed.
3. Use the "Data not available" box if the question asks for details that are not required by your state law or the question asks for information that is not currently collected.
4. You may find it helpful to read an entire section before answering any of the questions in that section.
5. Please attempt to record data according to the categories as they are defined in the question. If your jurisdiction uses a different data classification scheme (for instance, collects data in such a way that combines two or more categories listed in a question), you can use the space provided for "Other" to provide numbers and details on these categories. Use as many "Other" categories as you need to adequately report the relevant statistics for your jurisdiction. If you enter information into the "Other" field, please use the comments field to provide an explanation for the answer.

In the example below, the jurisdiction does not collect separate statistics on the number of duplicate and rejected registration forms, but instead has only one number that represents the total number of registration forms that are either duplicated/or rejected.

EXAMPLE:

A5. In order to evaluate the workflow of your office over the last election cycle, enter the total number of registration forms your jurisdiction received from all sources during the period from the close of registration for the November 2006 general election until the close of registration for the November 2008 general election. Include here any Election Day or Same Day registrations, if applicable. Also include any special categories of voters who may have extended deadlines, such as returning military personnel, if applicable.

A5a. Total ☐ Data not available

Next, divide the total number of registration application forms received (as entered in A5a) into the following categories. The amounts should sum to the total provided in A5a.

SECTION F

Election Day Activities

- F1 and F2 ask for turnout figures for the November 2008 general election and the source used to arrive at this number.
- F3 asks for the number of first time voters who registered to vote by mail and, under HAVA 303(b), were subject to provide identification.
- F4 asks for information on electronic poll books or electronic lists of voters that may have been used.
- F5 and F6 ask for information on printed poll books or printed lists of voters that may have been used.
- F7 asks for the type of primary voting equipment used.
- F8 solicits any additional comments jurisdictions may wish to share regarding their Election Day experiences.

F1. Enter the total number of people in your jurisdiction who participated in the November 2008 general election. Include all type of voters (civilian and military) by all types of ballots. Include rejected provisional ballots only if your jurisdiction credits the person's vote history even though the provisional ballot was rejected.
